Version 1: Large buoy for Shrug

This buoy would be an ideal sculptural marker and a carrier for the qr code of shrug.no. A very large buoy 235cm x 117cm maybe sponsored or borrowed? I found no direct affiliations for the manufacturer Polyform in ..., on the net. Hopes are that lucky local knowledge can come to the rescue! The image is of buoy "HDF 30" and comes from <https://polyform.no/hard-shell-pe-products/hdf-series/>

This version can be accompanied by poster 1:

Version 2: Modest buoy for Shrug

This modest sized buoy would be an economy class sculptural marker and carrier for the qr code of shrug.no. The buoy is 65cm x 88cm and can be obtained from ... in The shop is approximately 3,5 km away from Productions, see: <https://www.maritim.no/maritim-bergen-1?parent=41393> Detailed description for it, Product 2199-53, by Maritim can be found online here: <https://www.maritim.no/kulefender?variant=27022#tabVariants> This balloon would serve also as a carrier for the qr code accompanied with a fitting rope, Product 2139-08, tied to it and the ensemble placed somewhere in ...'s space. Financing can be shared between Productions and shrug.no if unavoidable. Although in every case and with either buoy, sponsoring for being lighter on the pocket or rental for being less wasteful would be eminently preferred! We will be happy to provide a label with this version as well!

Economy version 2: Shrug poster only

Please find the poster for this version on the cover page of this pdf! We will be happy to provide a print ready scalable design of your specifications on demand.

Economy version 3: shrugSaver or HD video

This handy lazy suzy formatted mp4 video is but 6,5MB and can be downloaded from <https://shrug.no/shrug-saver.mp4> to be distributed via the ... section.

Economy version 4: a combination of 2 and 3

This version combines the economy class 2 and 3 for an affordable yet an easy encounter with shrug.

Production & Attribution

In the very fortunate turn of realising the ideal buoy installation or the economy buoy installations we would be only happy to share credentials with the actual person(s) helping and Productions.
